I have to say that this game is really good! I have played through the game twice now, and the DLC is really nice as well! :) Even the cutscenes from the first game get to enjoy again when playing the DLC! The story of this game is also very good! I like the different appearances you can make of your character and so on. Playing as someone that comes to the real world and takes over the real world (like the main character) is really fun! He even has some nice little details on him/her, like the tattoos (of which there are loads of different ones, and the different stances of the characters.) The music and sounds are also really good! However, it can become a bit of a chore when the music is constantly repeating. Overall, this game is really great! I recommend it! It is a very good game with lots of fun things to do and see. I am having a great time playing it! :) :) :-) :) :-) :) :-) :) :-) :) :-) :-) :-) :) :-) :) :) :) :-) :) :-) :-) :) :-) :) :) :-) :) :-) :-) :-) :-) :-) :) :-) :-) :-) :-) :-) :-) :-) :-) :) :-) :-) :) :-) :-) :) :-) :-) :) :-) :-) :-) :) :-) :-) :) :-) :) :-) :-) :-) :-) :-) :) :-) :-) :-) :-) :-) :-) :-) :-
